

Use of Two Different Alignment Media to Resolve Ambiguity

Streptococcal Protein G (56 Residues):

α , β , γ , D_a , R: 71, -21, 55, -7.7, 0.66 for *fd* at pH 5.4

66, 89, 22, -9.7, 0.23 for bicelles at pH 7.0

Clore, Starich and Gronenborn, J. Am. Chem. Soc. 1998, 120, 10571-2
