

Why join the BCP?

BIOLOGICAL CHEMISTRY PROGRAM

An Interdisciplinary Graduate Experience

[1]

The Biological Chemistry Program offers unique opportunities for cutting-edge research with the advantages of choosing from research conducted in any of three excellent programs. The three programs have internationally renowned faculty, state-of-the-art instrumentation, and outstanding support facilities.

The two participating departments/divisions - [Chemistry and Biochemistry](#), [2] and [Drug Discovery and Development](#) [3] are located on the [University of Arizona](#) [4] campus.

Career Opportunities

The Biological Chemistry Program provides exposure to the myriad of excellent career opportunities that exist for scientists trained at the chemistry/biology interface. These opportunities include careers as faculty in Universities and Colleges and as scientists in biotechnology and pharmaceutical companies, National Institutes of Health, Food and Drug Administration.
