

Missed Lab Policy

If you miss a **General Chemistry Lab**, refer to your course syllabus for dates, times and schedules of the make-up labs.

If you miss an **Organic Chemistry Lab**, the Teaching Support Office (TSO) in Koffler 201 has posted dates and times of the make-up labs. Labs must be made up during the missed week or the following week.

Special Make-up Labs

After the standard “make-up week” has passed, the reagents and supplies are stored and not available unless you receive special permission from [Steve Brown](#) ^[1], [or Anne Padias](#) ^[2] in the Teaching Support Office (Koffler 201). If your special makeup request is approved, it will be forward it to the Preproom. You will receive confirmation via E-mail regarding the details of your makeup lab. Please print and bring this E-mail message with you when you come to make up the experiment so the Preproom person may check out the kit to you.

Only Lab Course Coordinator may Approve a Special Make-up Lab.

It is the Students’ responsibility to log into the Makeup Logbook and have Makeup TA signatures of proof for makeup work to be accepted by their course instructor.
